July 28, 2008

To Whom It May Concern:

Castle Construction is currently the general contractor for the District's Mountain Vista Relocatable Project. This project consists of site demolition, site work and utility hook-up for 6 existing relocatables, which were moved from Eastin-Arcola school to Mountain Vista High School. The project is scheduled to be completed by August 8, 2008.

This is the first time the District has worked with Castle Construction and we have had a very pleasant working experience with them thus far. Mr. Reno Coletti and Mr. Ron LeBoeuf pay close attention to detail and are very knowledgeable in all aspects of construction and construction management. They also are very adaptable, as we have had many changes to this project, and they try their best to work with these changes, and not let it affect the schedule. I have been consistently impressed by both Mr. Coletti's and Mr. LeBoeuf's professionalism, attitude towards their work, and their performance on the job.

Overall, the District has been very pleased with Castle Construction's work, and their willingness to get the job done right and on time. We would be happy to work with them again in future projects.

If you need to contact, I can be reached at (559) 675-4548.

Sincerely,

Rosalind Cox
Madera Unified School District
